400 MPM Singlefold Towel Interfolding Line

Press Release 7-March-2022 Ashland, Wisconsin –

C. G. Bretting Manufacturing Co., Inc. (Bretting) is pleased to announce the launch of our 400 meter per minute (MPM) Singlefold Towel Interfolder, a new high-speed, interfolding line.

The new Singlefold Towel Interfolder provides the highest towel production capability on the market today. This new platform is the result of years of research and development in mechanical folding and separation technologies.

The 400 MPM Singlefold follows a long legacy of quality machinery from Bretting, including Multifold, Tissue, and a wide array of napkin folders for both at-home and away-from-home markets.

Let Bretting expertise and innovation work for you. Please contact us to learn more about our latest Singlefold Towel line and how it can make your operations more productive.

Bretting is a 132-year-old, fifth-generation, family-owned business located in Ashland, Wisconsin with 280,000 square feet of manufacturing and office space. Bretting is a world leader in the design, manufacture, and service of paper converting equipment along with contract machining and OEM Parts.

Absolut Manufacturing, LLC, located in Iron River, Wisconsin, is where we design, manufacture, and service nonwoven and paper bag converting equipment. We recently added a new 30,000 square foot building which includes office, manufacturing, and assembly space.

T&T Manufacturing, LLC in Spooner, Wisconsin, another Bretting Company, provides high-quality machining and fabrication services.
